Subj: I am polished and have lots of problems!

Dear Sir and/or Madam,

I am a polished professional CEO age 20 I am thin and I have a polished skin. My life is a shining shining world. Everyday, I am polished. I eat cocaine. My name is Jennifer Jason Leigh. I polish until all has diminished again. And now, let me tell you my secret.

That means I eat it up and then I throw up again. This is my secret world. I am 82 pounds. I used to weigh 83 pounds. I weigh 83 pounds. I used to weigh 82 pounds. I had a life, once and I had a dream I went to college. I had, a success. What has happened I think my runny ego yolks and as the milk the milk and it all goes down and out again. And again. I will never be the same.

Could you help me? I only just want to be noticed and loved again.

Here is a picture of me.

They say a picture is worth a thousand words, but I have no longer nothing else to say to you.

A brief description about you:

I was, I am, a light, that you wanted to see, what we shone was as dimming upon that. When I was a child. I am 20 years old. I have a wife a husband and a steady and rigorous job. Marble, lots of marble things. Columns. Sculptures. Paintings. Photographs and I get lost sometimes. It's hard to keep this up and I cannot forever.

Tell us about your life, your secrets:

One day AND THEN oh but how oh but how could you know? You trusted me and now I am but mashed potatoes. Juice and sugar sludge. And all the crusty edges of the ever prickling of the brands and I am now no longer shining as I was AND YET I MUST. but you must help me to be kept. to share, to be, but say you can assist me?

Subj: Hello!

Hello!

I am very glad, that you have written to me the letter. I with impatience forward to hearing from you. To me it is pleasant, that you have become interested in me as well as I am interested by you. I wish to tell to you a little about myself. My name is Olga. To me 32 years. I live in Su-rok. It not the big settlement of city type. I live together with my mum and my grandmother, in a small apartment, in the center of settlement. I was married but as 4 years I am dissolved. With the former husband we have lived together about 2 years. But, to my regret, I do not have children, but I very much would like, that I would have children. Start up they will be and not my native, but I shall love them all the same as the . When I left for the husband, thought that he good, but there was all on the contrary. I have been very disappointed. I wish to find such the man which will look at me not as on a toy or hobby and as on the person who has ideas and the opinion. Also that there would be always a trust and understanding. Because without trust, and understanding will not be attitudes between two people. I wish to tell to you that the age in this life has no value. The most important, that two persons would be happy together. I think, if love, do not look on his age, and the main thing

that him is good also they are happy together.
My trade the financier. I work financial expert in
the Ministry of Internal Affairs of my settle-
ment, and I like my work. I love the work. To
like me that I there do. And at you what work? I
hope for your understanding. You have very
much interested me! Together with the letter I
send you my photos! I shall wait from you for
the answer.
Olga.

desk. when im folding, in myself, the day be day
